Produce Your Next Virtual Event with us!

Create an experience that rivals an in-person event.

Virtual events combine live streaming and pre-recorded visual content to guide attendees through a well-planned agenda. These events can feature keynote presentations, multiple concurrent breakout sessions, panel discussions, peer-to-peer networking, virtual tradeshow, and much more.

## Event types:

- Town halls
- Keynote Presentations
- Conferences
- Training
- Presentations
- Commencements
- Panel discussions
- Interviews
- Tradeshow
- Product launches

## Event features:

- Concurrent breakout sessions
- Peer-to-peer networking
- Virtual tradeshow-like experiences
- Custom virtual event websites and portals
- Q&A
- Polling

## Benefits of WPA Virtual

If you are feeling overwhelmed in trying to do it all yourself, don't worry. WPA Virtual has experience with multiple technologies and can help you create your virtual event utilizing your preferred platform to best leverage your previous investments. WPA Virtual can help you produce a high-impact virtual event with expertise in:

- EventCasting (live streaming) and webinar platforms
- Event moderation and facilitation
- Platform agnostic with expertise in Zoom, Webex, Microsoft Teams, Enterprise Skype, Vimeo, YouTube, Facebook Live, etc.
- Video production
- Event media and presentation design
- Custom event website and portal experience design
- Custom printed backgrounds available
- Easy DIY packages available to send to remote presenters (Camera and audio)
